

Implementing the E-ARK Specifications

Lesson Learned and Consequences

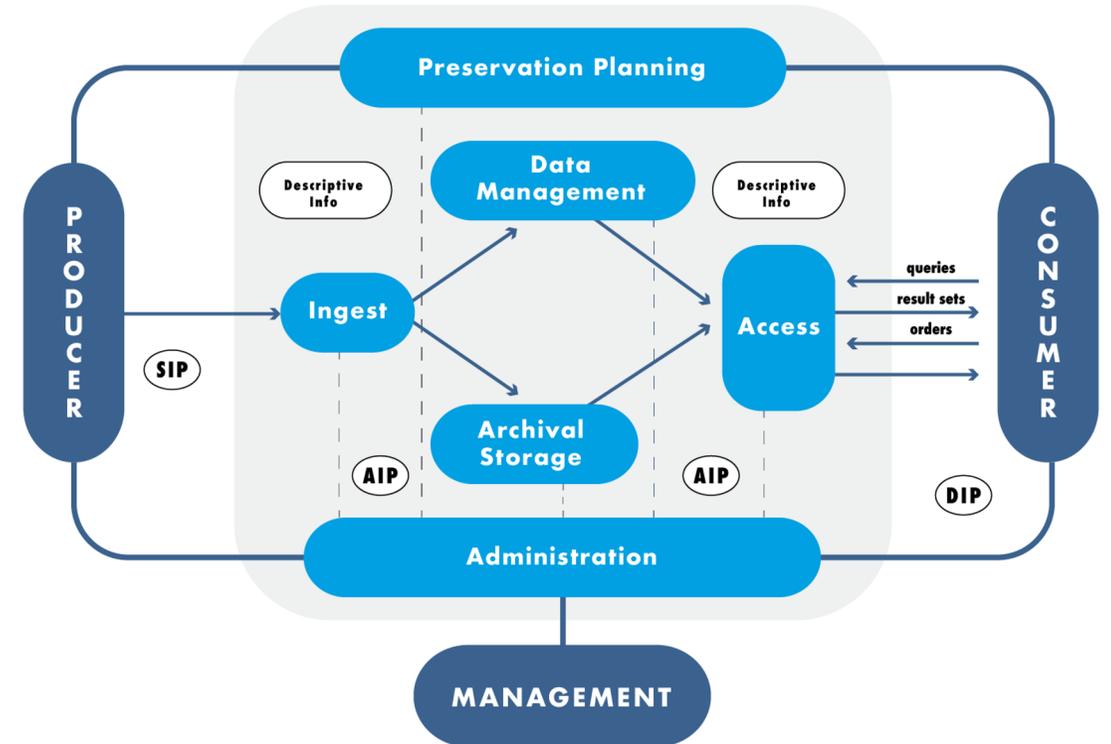

Frederik Rosseel & Michiel Van Driessche

Our Goal: The Most Complete and Versatile Digital Archiving solution

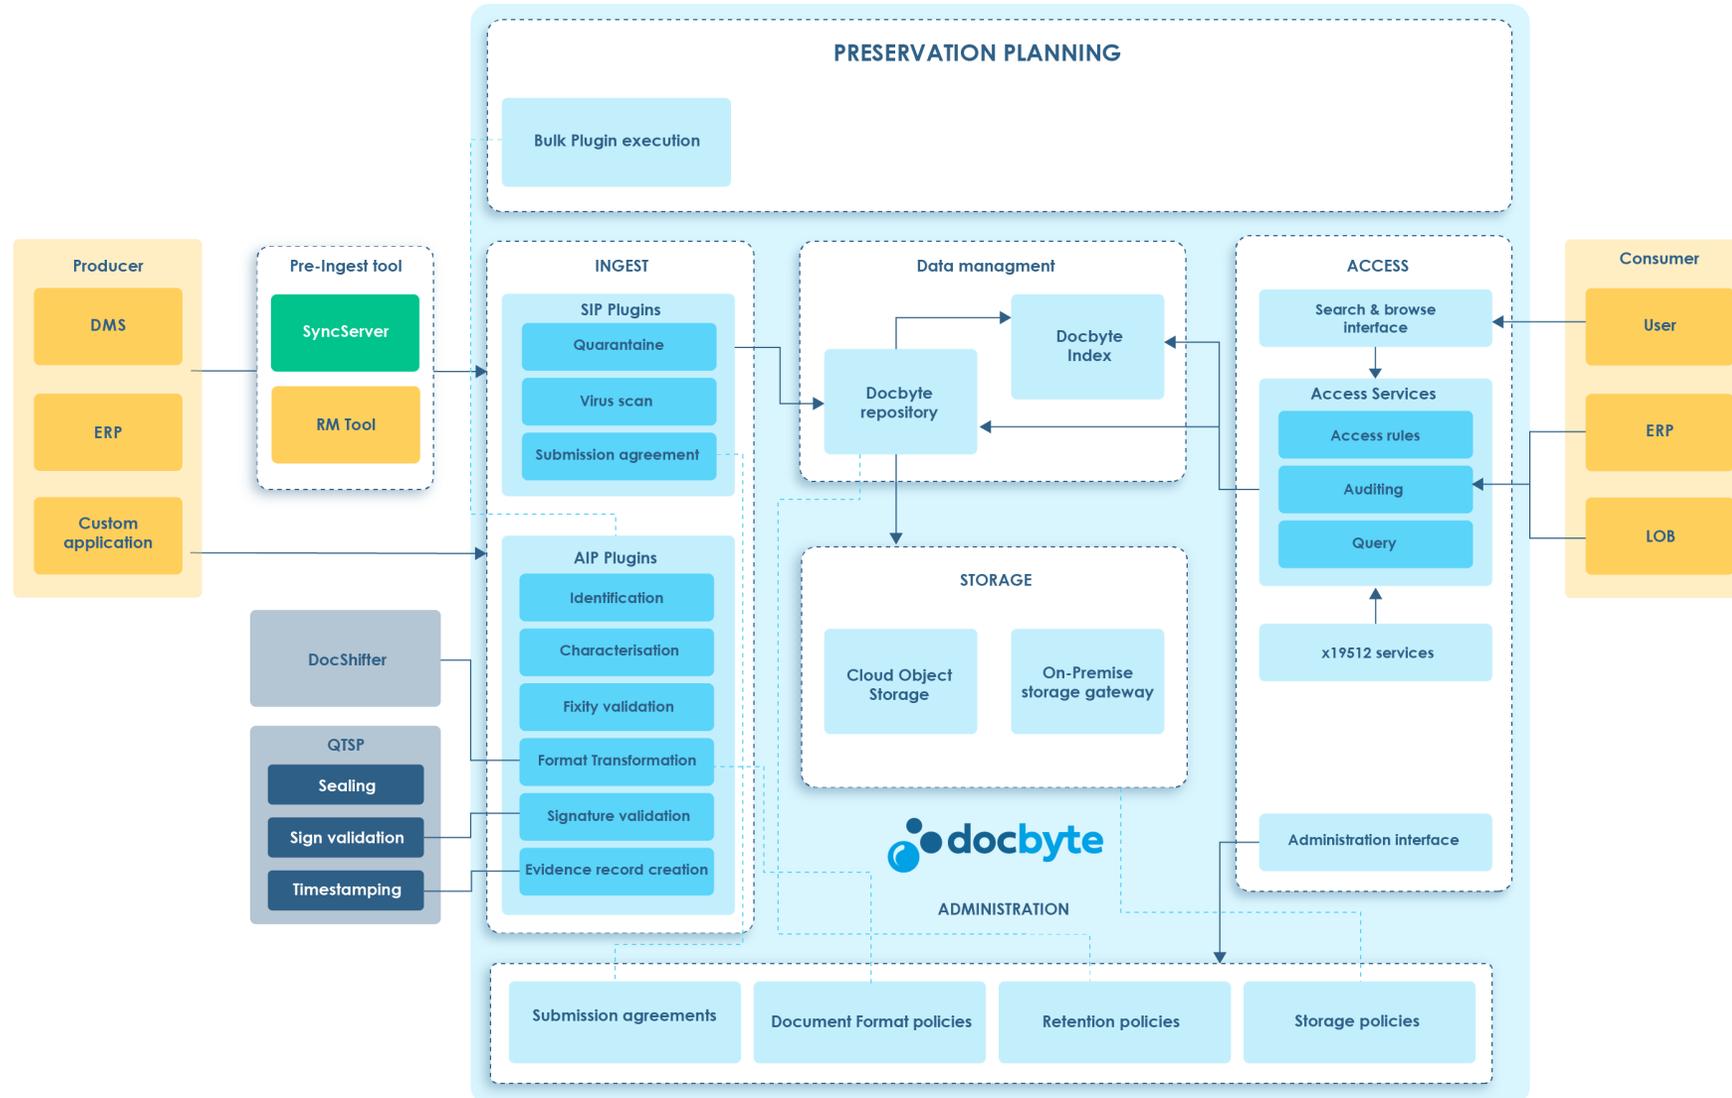

- Flexibility
 - Metadata schemes
 - Preservation Action
 - Very large volumes
- Resilient
 - Data Portability (Use of Information Packages)
 - “Exit-strategy”
 - No Vendor Lock-In
- Compliance

Trustworthy Repository

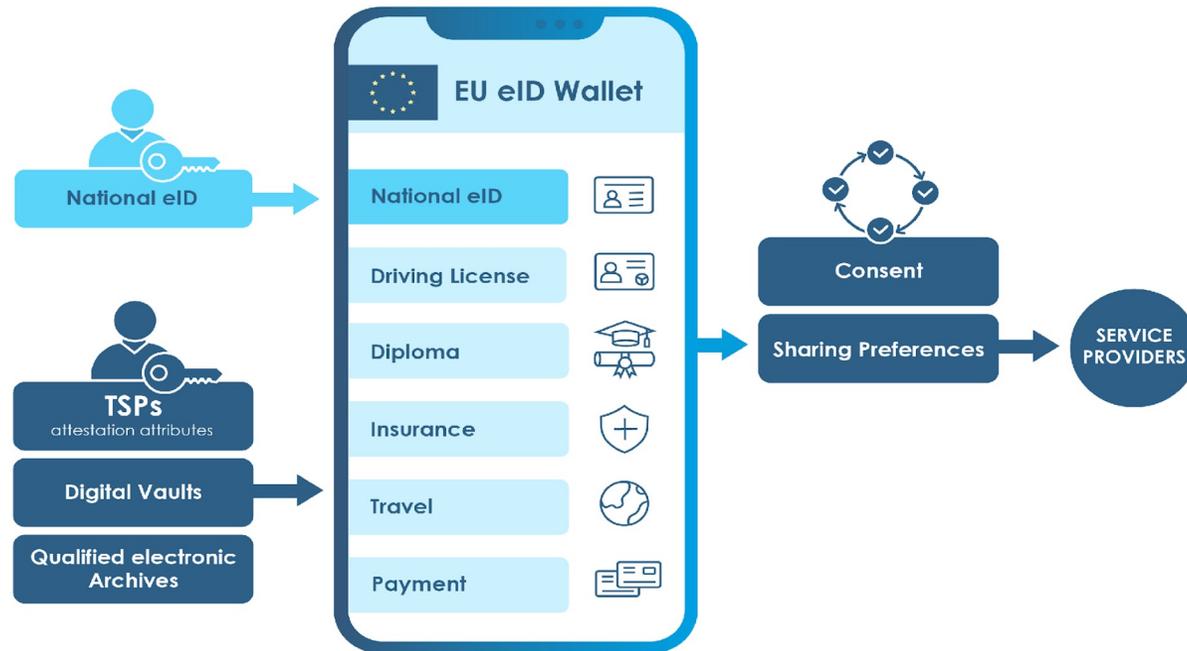

- ISO 14721 / ISO 14641
- Belgian Digital Act
- eIDAS Regulation
- E-ARK Specification 2.04
- ETSI 319.401
- ETSI 119.511 / 119.512

Docbyte Platform

eIDAS v2

Titel: 2014-02-24-besluit
Maker: SyncServer
Vervaldatum: 2033-01-07T13:27:09Z
Taal: NL
Bron: Notulen
Onderwerp: Notulen van de vergadering van de gemeenteraad van 22 en 23 mei 2017 - Goedkeuring
Beschrijving: Aan de gemeenteraad wordt gevraagd zijn goedkeuring te verlenen aan de notulen van de vergadering van de gemeenteraad van 27 januari 2014.
Identificatie: 2014_GR_00153

Metadata Schemes

- Schema agnostic
- Multiple schemas possible
- Flexible schema mapping for indexing
- Example
 - » Dublin core
 - » MDTO
 - » EAD
 - » PREMIS
 - » ...

MDTO

Integrating with E-ARK – SIP: commons-ip

- Validate SIP
- Simplify handling of METS files
- Read SIP contents and allows to map to AIP structure.

Challenges of Integrating with E-ARK - AIP

- Commons-IP
 - File Storage based
 - Not scalable / flexible
- METS = Not Easy
 - Maintain
 - Indexing
 - ...

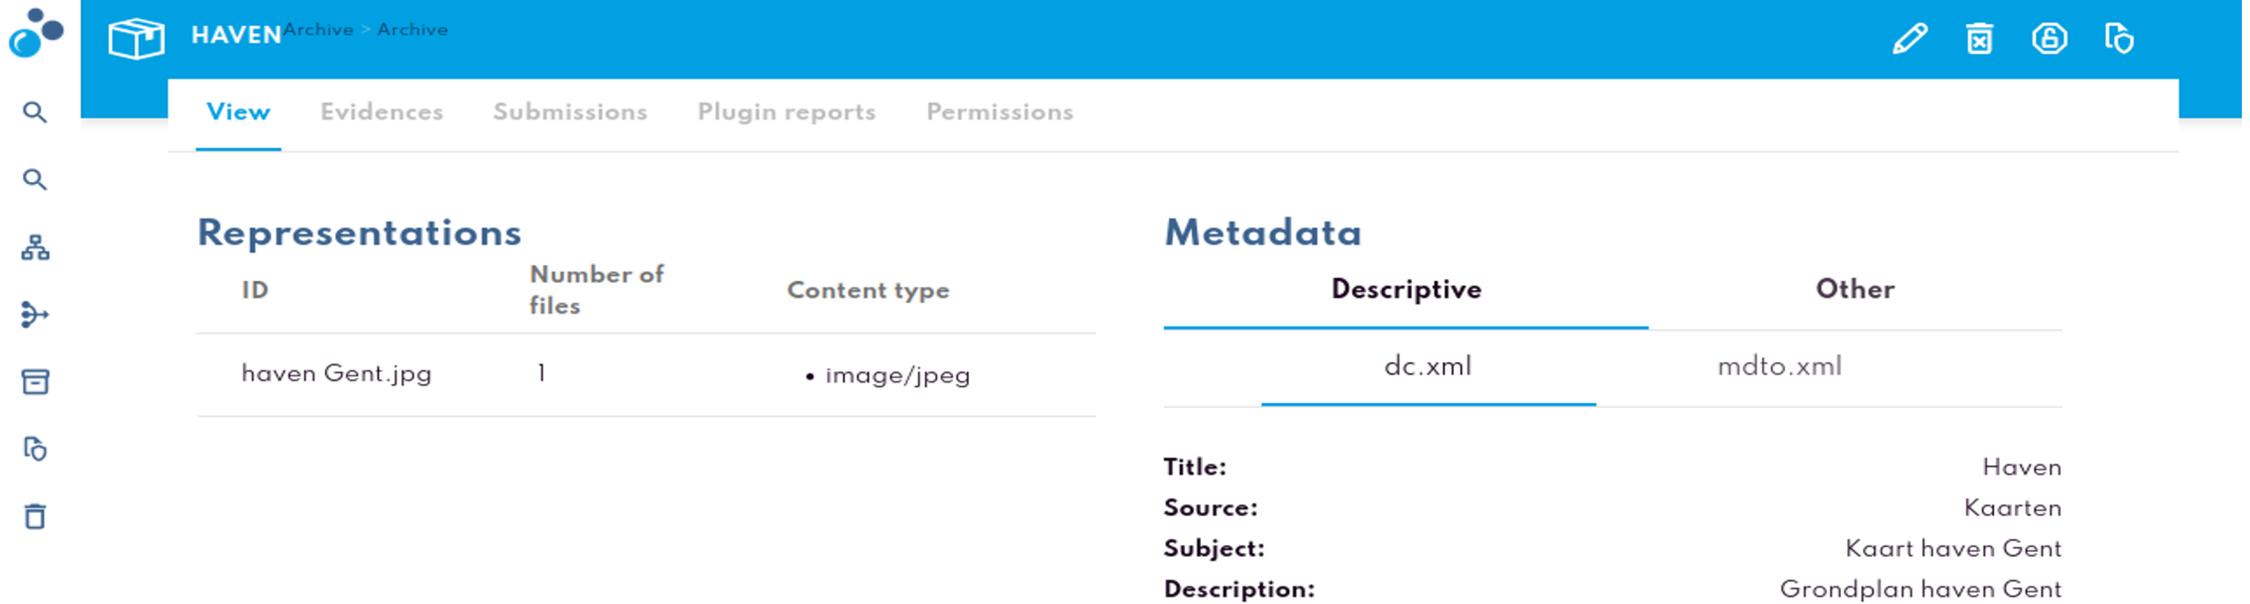

Integrating with E-ARK – AIP: More than just a metadata schema

- Map E-ARK AIP structure to functionality of Docbyte Platform
 - Security
 - Retention
 - Flexible storage layer
 - Scalable
 - Multi-tiered
 - Securable (WORM, Retention, ...)
 - System wide audit trail
- Upon AIP update
 - Reflect changes to METS & PREMIS

Managing E-ARK AIP

- Metadata
 - Multiple schemas possible
 - Index engine combines schemas
 - Updates through delta submissions
- Preservation
 - Renditions possible
 - Fixity stored in PREMIS
- Integrity evidence
 - Stored as preservation metadata

Visualising E-ARK AIP

The screenshot displays the HAVEN Archive interface. At the top, there is a blue header with the HAVEN logo and the text 'HAVEN Archive > Archive'. On the right side of the header, there are icons for edit, delete, share, and refresh. Below the header, there is a navigation menu with options: 'View', 'Evidences', 'Submissions', 'Plugin reports', and 'Permissions'. The 'View' option is currently selected.

The main content area is divided into two sections: 'Representations' and 'Metadata'.

Representations

Advantages of E-ARK Specification

- Flexible
- Covers best practices
- Open standards
- Available tooling
 - Creation
 - Validation

Future of E-ARK Specification?

- Upgrading to newer versions of eark standard
 - Backwards compatible?

Thank you
