

eIDAS/EUDI Regulation electronic archiving service

From the point of view of a Qualified Trust Service Provider

Marta Gaia Castellan – Tinexta Infocert

What is a Qualified Trust Service Provider?

A Trust Service Provider is
“QUALIFIED” when:

- it meets requirements defined by the **eIDAS Regulations** 910/2014 and 1183/2024
- it is **certified by a national supervisory body** (CAB) through a conformity assessment
- it is listed in the **EU Trusted List**

- electronic signatures, seals, and timestamp certificates
- registered electronic delivery services
- certificates for website authentication
- preservation of signatures, seals, or certificates
- electronic ledgers
- electronic archiving of data and documents
- ...

Examples of trust services

‘electronic signature’ means data in electronic form which is attached to or logically associated with other data in electronic form and which is used by the signatory to sign;

‘advanced electronic signature’ means an electronic signature which meets the requirements set out in Article 26;

‘qualified electronic signature’ means an advanced electronic signature that is created by a qualified electronic signature creation device, and which is based on a qualified certificate for electronic signatures;

‘electronic seal’ means data in electronic form, which is attached to or logically associated with other data in electronic form to ensure the latter’s origin and integrity;

‘qualified electronic seal’ means an advanced electronic seal, which is created by a qualified electronic seal creation device, and that is based on a qualified certificate for electronic seal;

Examples of trust services

‘electronic time stamp’ means data in electronic form which binds other data in electronic form to a particular time establishing evidence that the latter data existed at that time;

‘electronic registered delivery service’ means a service that makes it possible to transmit data between third parties by electronic means and provides evidence relating to the handling of the transmitted data, including proof of sending and receiving the data, and that protects transmitted data against the risk of loss, theft, damage or any unauthorized alterations;

The new trust service

“electronic archiving” means a service ensuring the receipt, storage, retrieval and deletion of electronic data and electronic documents in order to ensure their durability and legibility as well as to preserve their integrity, confidentiality and proof of origin throughout the preservation period;

“qualified electronic archiving service” means an electronic archiving service which is provided by a qualified trust service provider and which meets the requirements laid down in Article 45j;

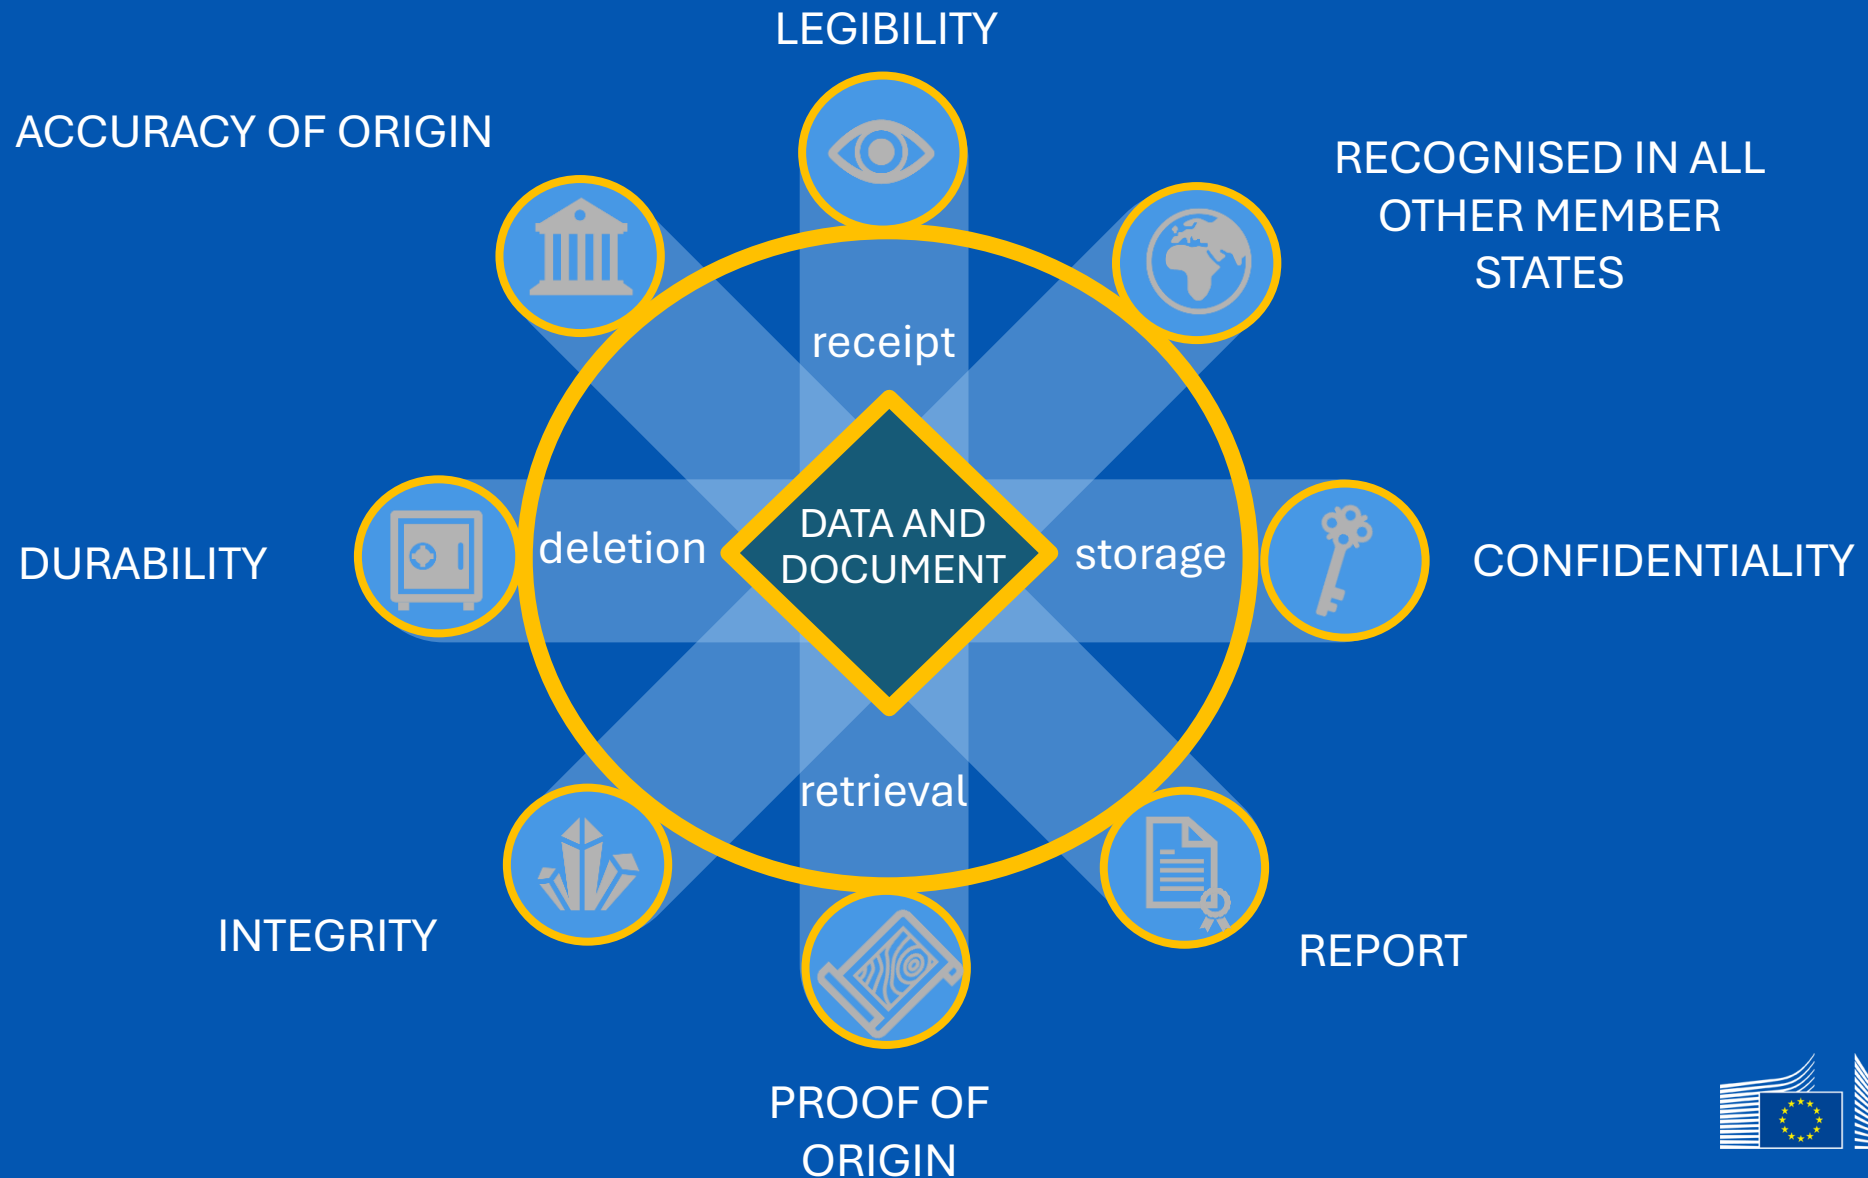

The new qualified trust service

“qualified electronic archiving service” means an electronic archiving service which is provided by a qualified trust service provider and which meets the requirements laid down in Article 45j;

- provided by QTSP
- ensuring the durability and legibility, integrity and accuracy of their origin
- safeguarded against loss and alteration, except for changes concerning their medium or electronic format
- with a report
- by 21 May 2025, the Commission shall, by means of implementing acts, establish a list of reference standards

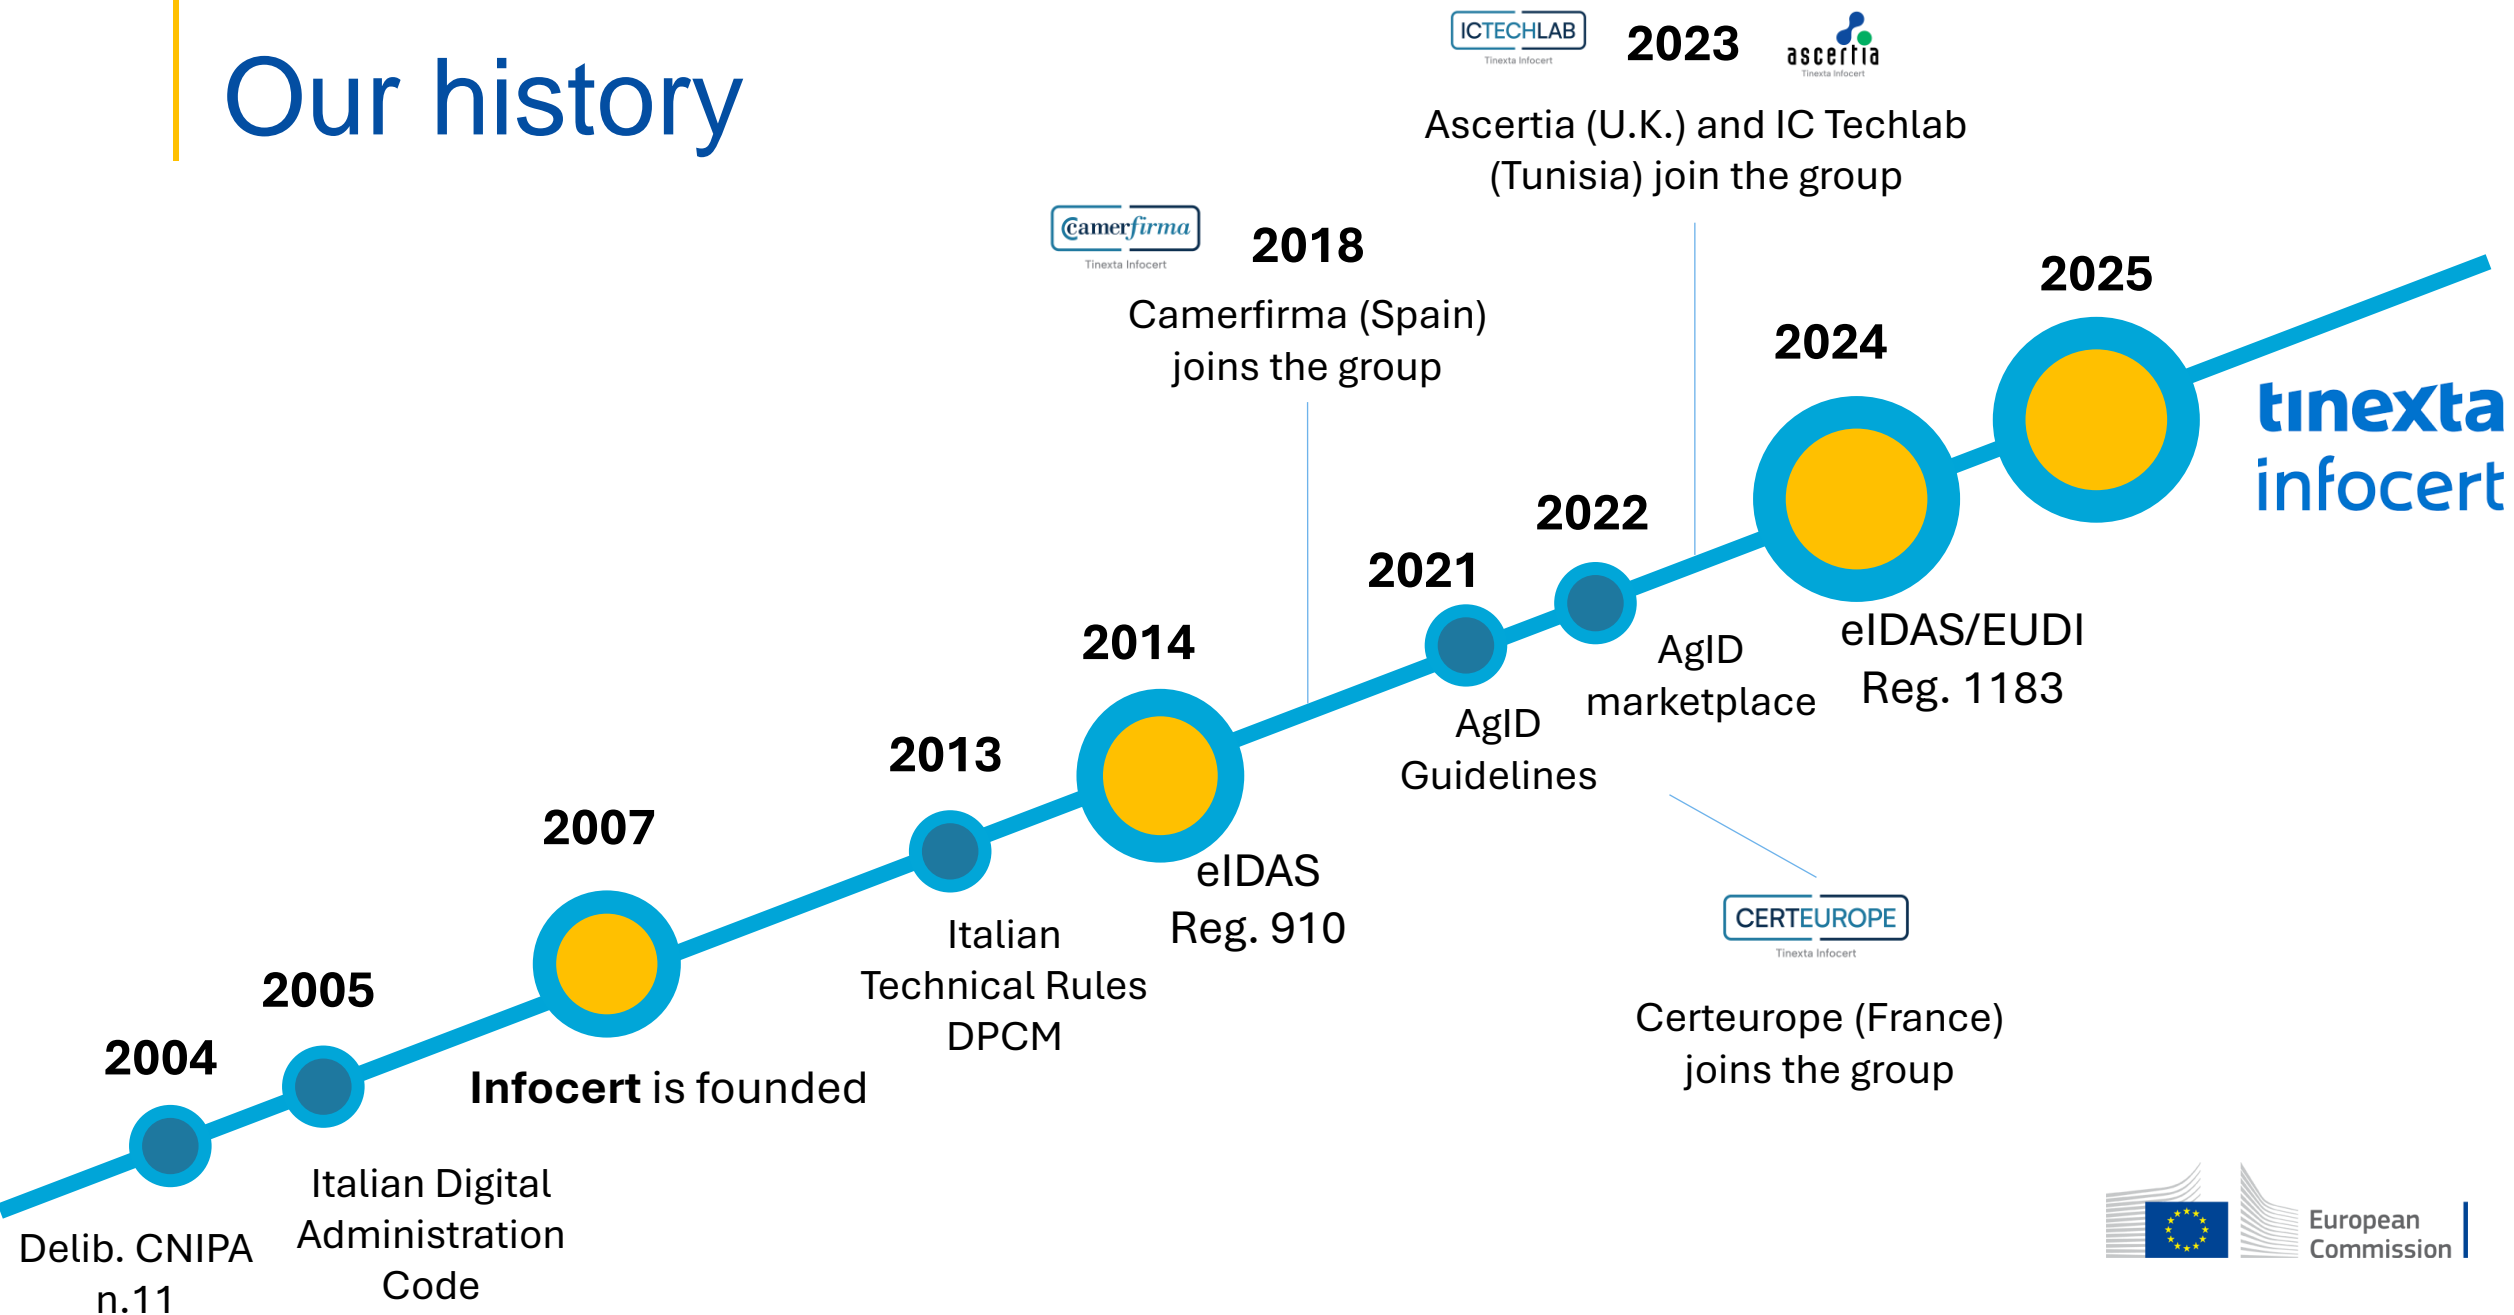

eArchiving service at a glance

From National to European Trust

- single internal market without borders
- mutual recognition
- adequate level of security of electronic identification means and trust services
